

Monitor data usage in Datastream Add On

Für das Datastream Add On gibt es ein Downloadlimit von 10 Million Data Points pro Monat. Mit der folgenden Anleitung können Sie Ihren Verbrauch beobachten.

To monitor your own usage, you need to run a static request:

- 1) Enter **X** into the Series box
- 2) Enter **DS.USERSTATS** into the Datatypes box

- 3) You will get a response like the below – the section in yellow being the most important when looking at datapoint usage.

<i>User ID for which usage stats is provided</i>	<i>Number of Service Hits</i>	<i>Number of Requests</i>	<i>Number of returned Datatypes</i>	<i>Number of returned Datapoints</i>	<i>Start date considered for user's usage stats</i>	<i>End date considered for user's usage stats</i>
