#### 1.1 Time frame

23.01.2025

# 1.1 Prepare Hard-/Software / Library WISO/BWL

- Set bookmarks:
  - Library WISO/BWL
  - Katalog**plus,** <u>Elektronische Zeitschriftenbibliothek</u>
  - Campuslieferdienst
- o <u>Library card</u>
  - Check-out, <u>Put a hold on a checked-out book</u>
  - Delivery services
- Install software
  - <u>VPN</u> (accessing electronic resources off-campus)
  - <u>Literature management software</u>

#### & and more

- Set bookmarks
  - ZBW: requesting material
  - <u>Recommend a purchase</u>
  - GoogleBooks
  - VHB-JOURQUAL
- Prepare interlibrary loan
  - <u>Online-Fernleihe</u> (GBV) (Sent to Stabi)
- Prepare <u>subito</u>
  - <u>Document delivery</u> via subito (Sent to your home address)

23.01.2025

## **1.1 Infrastructure: Finding fulltexts**

Is it a **book / book chapter** or a **journal article?** 

#### Do you find the book in <u>Katalog*plus*</u>?

- Write down the library and the shelf mark, check if an ebook is available.
- You only need a chapter? Order a scan via the <u>Scan & deliver service</u>

#### The book is not in our collection?

- Is the title available at ZBW: ZBW requesting material
- for literature published in recent years (i.e. 2024/2025): <u>Recommend a purchase</u>
- for older literature: check the slow (<u>GBV Online-Fernleihe</u>) or the fast (<u>subito</u>) document delivery service
- check <u>Google Books</u> for a first glimpse at the title

#### Is the fulltext (of the article, Working Paper) available on the internet?

 Search the title of the journal article or the working paper in <u>Google</u> ("search for a phrase" by

("search for a phrase by using quotation marks, if nec. limit to filetype:pdf) >> be on campus or login via VPN to get access to our licenced resources Do you find the journal title in <u>Katalog*plus*</u>? Do you find the journal title in the <u>ZDB</u>?

## 2.4 AI tools

i.e. <u>UHHGPT</u>, <u>Perplexity.ai</u> (brainstorming for synonyms and alternative terms)

Prompt:

For my literature search on the topic "Knowledge transfer between generations", I would like to apply the Blockbuildung/Building Blocks method.

- 1) Identify the keywords in my topic.
- 2) Find 20 English synonyms for: "Knowledge transfer". Rank these by relevance.
- 3) Find 20 English broader and narrower terms for: "Knowledge transfer". Rank these by relevance.
- 4) Find 20 English related terms for: "Knowledge transfer". Rank these by relevance.

## 2.6 Search Syntax

- Search terms
  - Term = words from the text, i.e. abstract, title, author field
  - Keyword/ Descriptor = are not part of the original text, describe the content
  - Thesaurus = Descriptors in hierarchical order
     z.B. Thesaurus Wirtschaft: B Betriebswirtschaft > B.04 Personalmanagement > B.04.04 Arbeitsbedingungen & betriebliche Arbeitsbeziehungen > B.04.04.01 Arbeitsbedingungen > Mitarbeiterbindung
- Truncation: Word stem search, Wildcard (#/\*/?)
- Boolean operators: UND / AND () ODER / OR

- Adjacency operators: number of words between search terms i.e. oil W3 (disaster OR clean-up OR contamination)
- Phrase search: "xxx xxx"

23.01.2025

## 2.7 Truncate and combine

Topic: Knowledge transfer between generations ("knowledge transfer\*" OR "knowledge shar\*" OR "knowledge exchange\*") AND (intergeneration\* OR older OR "age group\*")

Applied:

- Truncation: Word stem, Wildcard (#/\*/?)
- Phrase search: "xxx xxx"

For the search strategy (Block Building Approach):

Boolean Operators: AND / OR

Build your search.

- Use Boolean operators and brackets (synonyms with OR).
   Example: (wissen\* OR knowledge\*) AND (transfer\* OR weitergabe\* OR austausch\* OR sharing\*) AND (generation\* OR intergeneration\* OR intergenerativ\*).
- Limit the search to the Title field.
- Check out the rankings "Relevance" and "Date (newest first)".

Check the results list.

- Which subject terms can you use?
- Does the articles fit your topic? Is there a new aspect of your topic?

  - Author Keywords were assigned by the authors and are not standardized.
  - Keywords Plus are automatically generated words based on an analysis of the literature cited by the article.
- 2. Click on interesting keywords and make a note of them for further searches.
- 3. To do this, go back to "Advanced Search" and combine the keywords with each other or
  - replace one concept with the keyword and combine this with your own search string for the other concept.
- 4. Try different combinations.

- Display the list of your hits. Select "Citation Report" at the top on the right side. Here Web of Science analyses the hits according to which have been cited most frequently by other articles. It is assumed that frequently cited literature represents basic literature that can be cited in the introduction to a topic.
- 2. Take a look at interesting articles in the full display. Use the "**Citation Network**" box in particular:
  - **XX Citations** = how often the article was cited: If you click on the number, the articles are listed.
  - XX Cited References = the bibliography of this article: click on the number to list the articles.
  - "View Related Records" = Articles that have a high correspondence to the articles used in the bibliography.

Abstract:	Summary increasing age diversity in the workplace has led to growing research attention to the knowledge transfer between older and younger	

employees. The existing illerature on age-diverse knowledge exchange has mostly focused on knowledge transfer from older to younger employee: as a means of knowledge retention. In this study, we change perspectives by aiming to understand how and when older employees' knowledge seeking from younger coworkers is related to their successful aging at work (i.e., the motivation and ability to continue working). Grounded in the self-regulatory process model of successful aging at work, we predict two countervailing pathways: a positive self-enhancing path via perceived learning and a negative self-protective path via embarrassment. In a time-lagged study with 764 older employees, we found that their knowledge seeking from younger coworkers was positively related to motivation to continue working and workability via perceived learning and negatively related to workability via embarrassment. We further examined older employees' positive intergenerational affect as a boundary condition and found a buffering effect on the negative path to workability. This research shows that knowledge transfer from younger to older employees is a net contributor to successful aging at work and embarrassment can be mitigated by positive intergenerational affect (ABSTRACT FROM AUTHOR
