

Declaration of authorship for final theses

The declaration of authorship is made up of 3 parts:

1. Affidavit
2. Description of the use of GAI in the final thesis
3. Final statement

Affidavit

I hereby declare in lieu of oath that I have written this thesis without assistance. I also affirm that I have not used any other aids or resources other than those listed (in particular, sources not listed in the bibliography). Furthermore, I affirm that I have not previously submitted the thesis in another examination procedure.

Description of the use of GAI in the final thesis

I confirm that I have only used generative artificial intelligence (AI) tools to the agreed extent agreed upon with my examiner(s).

I hereby confirm that I have only used internet sources or AI applications in the form shown below. All passages from publications which have been cited literally or summarized are marked accordingly.

I declare that I have only used text-generating AI tools as an aid, and that the work submitted is predominantly the result of my input. I am aware that the use of machine-generated texts does not guarantee the quality of content or the text itself.

I take full responsibility for the adoption of any machine-generated text passages, and provide the following list documenting the tasks for which AI tools were used.

In this final thesis, I have used GAI systems as follows:

- not at all
- for generating ideas
- for creating the outline
- for creating individual passages, which total % percent of the entire text
- for developing software source code/program code
- for optimizing or restructuring software source code
- for proofreading or optimizing
- for other tasks, namely:

I declare that I have provided full details of all uses. I am aware that missing or incorrect information may be considered an attempt to cheat. I am also prepared to disclose my process (e.g., using working notes, prompts, or oral statements, etc.).

Final statement

If the use of AI writing tools has not been expressly permitted for the preparation of the final thesis, these must be marked as such.

I am aware that a violation of the above provisions may have consequences under the examination regulations and, in particular, may result in the examination being assessed as “insufficient” and that multiple or severe instances of cheating may result in my being withdrawn from the degree program.
