### CLUSTER OF EXCELLENCE 'CLIMATE, CLIMATIC CHANGE AND SOCIETY' (CLICCS, CEN)

#### CLICCS B2 WORK PACKAGE 2

The next few years of climate governance-in-the-making are critical: observing them closely allows us to identify and assess key drivers of long-term social trends towards or away from decarbonization, which form – individually and through their interaction at different governance scales – the backdrop of possible and plausible scenarios of future climate governance. As such, the Cluster of Excellence Climate, Climatic Change and Society (CLICCS) focuses on the overarching question: 'Which climate futures are possible and which are plausible?'. The research group CLICCS B2 (composed of three Work Packages) investigates the 'Dynamics of Climate Governance: Norms, Contestation, and Policies', while Work Package 2 looks more specifically at contestations of climate governance norms and the diverse meanings and contested use of 'climate justice'.

**Dr Jan Wilkens** is a Research Associate and Postdoctoral Researcher at the University of Hamburg working for the CLICCS Synthesis Team. He is interested in working with environmental activists, NGOs and experts from the Middle-East and North Africa to understand the contestations around energy and climate change taking place in the Mediterranean.

**Contact details:** [jan.wilkens@uni-hamburg.de](mailto:jan.wilkens@uni-hamburg.de)

Tel: +49 (0) 40 42838 7784

**Office:** Bundesstraße 53, Raum 252, 20144 Hamburg

 @JanWilkens

**Alvine Datchoua-Tirvaudey, MA** is a Research Associate and PhD candidate at the University of Hamburg working for the CLICCS B2 WP2 project. She is interested in authoring an article with young people who call the Arctic home (Indigenous Rights-Holders, Knowledge-Holders and Early Career Researchers), which includes a paid research process, the translation of the article in the language of the authors and dissemination according to the authors' cultural codes of research ethics and knowledge property rights.
