Call for bachelor thesis

Topic:

Disposal of photovoltaic panels – Analysis of the status quo

Aim:

The thesis is intended to analyze the current status quo of photovoltaic recycling. The aim is to describe the current infrastructure and model of recycling and discuss if German customers will create special waste in the future. This shall be done along a review of the current status quo in Germany.

Results:

- Analysis of the recycling models and infrastructure in Germany.
- Discussion of future developments and improvements.
- Possible effects on future disposal issues of current customers.
- Conclusion about the status quo of photovoltaic recycling.

Advisor:

1. Prof. Dr. Timo Busch
2. Marcel Richert

Please note:

Thesis can also be written in German.
