Penalty calculation sheet

All penalties are calculated by the following formula:

\[ penalty = 6.6 \times (ln (time) + 14) \]

with

- penalty: raw point deduction
- time: time in minutes of late hand in

General information

A maximum of 100 raw points can be accumulated during the course. (Only) the raw points determine the final grade. Any late hand within 7.5 minutes of the deadline will not bear any penalty. Relevant is only the time of reception of your documents with us. For e-mail hand-ins our server time is relevant. For traditional hand-ins the time noted on the cover upon reception is relevant.

Please make sure to hand in your documents in time. We advise you not to wait until the last minute.
