

We are looking for a:

Student Research Assistant (m/w/d)

to support the work of the Sustainability Economics Group led by Prof. Dr. Moritz Drupp.

The position holder will support a research project that aims at providing a more comprehensive perspective on the distributional effects of environmental policies. In particular, the project aims to better understand and quantify the distributional impacts of biodiversity loss and air pollution. You will support us through literature research and by assisting in the preparation and evaluation of data sets.

The ideal candidates should have:

- very good academic performance
- very good knowledge of English
- strong work ethics and good organizational skills
- very good knowledge of statistical software (such as Stata or R) as well as experience with programming languages (such as Phython, MATLAB, Octave, LaTeX, Django, JavaScript), or the willingness to learn them
- interest in empirical research

Working time will be 30 hours per month with a current gross hourly wage of € 10.44. The contract will initially be a fixed term appointment until the end of March 2021, and can be extended thereafter. We offer a nice, dynamic working environment, flexibility in allocating working hours and insights into the research and teaching activities of our working group.

To apply for this position, please, send us your application in English (attaching a cover letter, which includes the requirements mentioned above, tabular curriculum vitae and proof of your academic achievements) via email to Björn Bos by **August 28th, 2020**:

bjoern.bos@uni-hamburg.de.

Selected candidates will be invited for an interview, which will take place on August 31st 2020 via a video conference system.

Jun.-Prof. Dr. Moritz Drupp

Fachbereich Volkswirtschaftslehre, insbesondere Umweltökonomik Von-Melle-Park 5 20146 Hamburg
