SOZIALWISSENSCHAFTEN

We are looking for a motivated:

### **Student Research Assistant [WHK] (m/w/d)**

to support the work of the Sustainability Economics Group led by Prof. Dr. Moritz Drupp.

The research assistant will support research projects on the economics of sustainability, including applications to climate change, air pollution, and biodiversity conservation. In most of these projects, we use behavioral experiments that are done in computer labs, via (online) surveys, and in the field.

#### **Your tasks:**

- You will support us primarily in programming experiments in oTree, a platform for behavioral research and experiments.
- Further tasks can include, for instance, to clean, prepare and pre-analyse datasets, to help us prepare fieldwork as well as to conduct literature reviews.

#### **The ideal candidate should have:**

- experience in programming languages (such as Django, Python or JavaScript) and version control systems (such as Github), or the interest to quickly acquire these
- very good academic performance
- very good knowledge of English
- strong work ethics, good organizational skills, and the ability to work independently
- interest in empirical research as well as in environmental economics and policy

Working time will be 20-30 hours per month with a current gross hourly wage of € 13.95. The contract will initially be a fixed term appointment for five months, and can be extended thereafter. We offer a nice, dynamic working environment, flexibility in allocating working hours and insights into the research activities of our working group.

To apply for this position, please, send us your application in English (attaching a cover letter, your CV, and proof of your academic achievements) via email to Björn Bos by 13.11.2022: [bjorn.bos@uni-hamburg.de](mailto:bjorn.bos@uni-hamburg.de).

Selected candidates will be invited for an interview, which will take place in the week thereafter via a video conference system. The desired starting date would be 01.01.2023, and candidates will still need to be enrolled in the next summer term 2023.

#### **Prof. Dr. Moritz Drupp**
